Approved Formats	N/A
Approved Printers Approved for use of material if applicable	N/A
Comments	Proprietary top coating which gives outstanding print performance across a wide variety of printing processes including flexography, letterpress, offset, silkscreen, gravure and hot or cold foiling. It is highly compatible with UV inks, excellent for demanding applications where the label can be exposed to moisture and a range of temperatures. However, exact ink and oil systems should be recommended by printer supplier. Please Note: In order for a material to be Approved by Ravenwood the trials must have taken place on a Coater that has been Serviced by Ravenwood within the last 12 months and whose Operators have been trained and passed by Ravenwood as competent.
